Feedback for Participant 12967971

These comments will allow you to benchmark your performance on this assignment as well as suggesting how you might improve on similar assignments in the future.

Needed to read assignment more closely for ERD.

Set Exercise 1: Entity Relationship Diagram
No partial ERD from Normalisation. ERD - No optionality. Activity linked to User prefs
5/15

Set Exercise 2: Normalisation
UNF - no candidate key or Repeating group. 1NF repeating group has compound key. Attributes only added at UNF. 2NF added attributes 3NF - repeated?
11/20

Set Exercise 3: SQL
Primary & Foreign keys better created using Constraints. Primary Key for User_Preferences (UserID, ActivityID) otherwise User can only have 1 Favourite activity.
11/15

Set Exercise 4: View
Pointless group by
9/10

Set Exercise 5: Stored procedure
No Archive/Delete procedure for User_Data. No create/update/delete procedures for User_Preferences & Activity_table records. No screenshot to show result of Insert_procc or UpdateRec. Shows NO recorded affected by update
4/30

Set Exercise 6: Trigger
No Trigger
0/10

Total: 40%

If after reading this feedback there is something you do not understand, please make an appointment with the module leader to discuss further. However, please remember under the rules provided in the Student Handbook that you cannot challenge a mark because you do not like what you have been awarded, you disagree with the way it has been marked or you feel you were not told what to do. Critical thinking is expected for university level assignments and thus ambiguity is to be expected.
